

Appl. No. 10/709,918  
Response dated 1/7/2006  
Reply to Office Action of 12/9/2005

### REMARKS/ARGUMENTS

#### Drawings

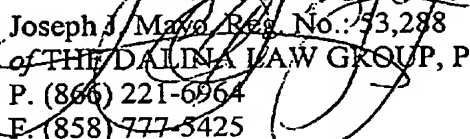

The Examiner has required descriptions of Figs. 10 & 11. The descriptions have been added to the Brief Description of the Drawings. Support for the text is found in paragraph 0043:

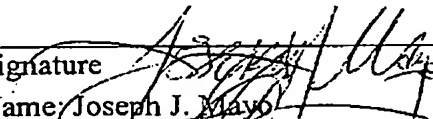

[0043] Figure 9 is a YZ-axis reeving diagram for a buoyant embodiment of the invention. This buoyant embodiment may be utilized with alternate reeving through redirection sheaves coupled with the platform if there is no direct path between Y-axis motor 102 and sheave 181. This alternate reeving is shown in Figure 10 with redirection sheaves 909 redirecting line over the area below. The connective element between sheaves 400 and 401 may be replaced by a visual display element and/or beam which is shown in Figure 11. Coupling Y-axis motor 102 and Z-axis motor 101 may comprise direct mounting in the beam or indirect mounting on the ground.

#### CONCLUSION

Applicant respectfully submits that all issues listed in the office action have been replied to without introducing new matter. Applicant requests issuance with all due haste.

Respectfully submitted,

  
Joseph J. Mayo, Reg. No.: 53,288
